

# MPlan Update Now Live:

## Enhanced User Interface for Facility Maintenance Planning

We're excited to let you know that the latest MPlan update is now live! This version brings an improved user interface (UI) designed to make your facility lifecycle planning smoother and more efficient.

### Enhanced UI, Simplified Experience

Our goal with the new MPlan update is to streamline your workflow. The update brings improved data grids that can be resized and reordered to fit your needs. This means you'll be able to organise and view your data exactly how you want, making the whole process more user-friendly and efficient.

We've worked on the navigation to make sure you can find what you need with minimal clicks, helping you access data and management controls easily.

### Consistent OmTrak Suite Integration

If you're already using other OmTrak modules, you'll find the new MPlan interface familiar and easy to navigate. The updated design maintains consistency across the OmTrak suite, including the Manuals and Site Works modules, ensuring everything works seamlessly together.

### Key Features of MPlan

- **Asset Lifecycle Management:** MPlan covers the full lifecycle of facility management, from inception to operations.
- **Lifecycle Planning:** Use comprehensive tools to create maintenance plans that fit your budget and service needs, optimising your resources.
- **Condition Audits:** Perform quick, accurate appraisals across different assets, ensuring no detail is missed.
- **Knowledge Management:** MPlan includes a knowledge base to train your team to manage and update lifecycle plans effectively.
- **Cloud-Based Platform:** Access MPlan from anywhere without heavy software installations or constant IT support.

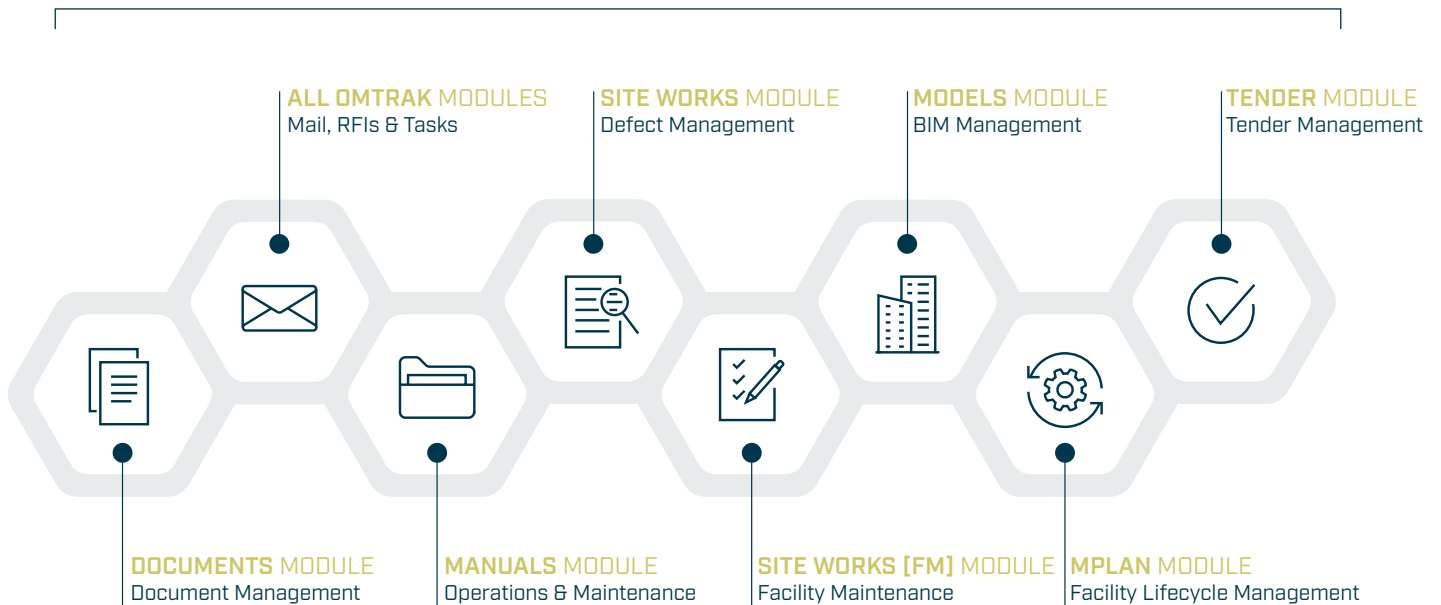

### What's New with the MPlan Update

- **Unified User Interface:** A consistent look across all modules reduces the learning curve.
- **Dashboard:** A new graphical dashboard has been introduced to give you a snap shot of your forward lifecycle cashflows.
- **Streamlined Operations:** Improved integration with the OmTrak suite ensures a cohesive management workflow.

## Boost Your Facility Maintenance

The new MPlan update is all about efficiency. Dive into the new features and see how they can improve your current practices. Review your training schedules, organise your data, and refine your asset strategies to make the most of what MPlan offers.

We aim to go beyond the evolving needs of asset managers by providing smarter, more connected, and efficient tools for facility maintenance management.

# ONE CLOUD-BASED SOLUTION FOR CONTRACTORS, ASSET OWNERS, AND FACILITY MANAGERS.

OmTrak is an easy to use online platform that manages the lifecycle of an asset, from design and construct to ongoing facility management. The award-winning software enables project teams to create, share and control data easily and accurately.

Solutions to Streamline Your Project

# BE THE MASTER

**“The end results for our clients are real time, cost saving and reduced risk. With OmTrak, there are no surprises and no information gaps and gives everyone involved a complete journey of confidence.”**
